

**PRESS RELEASE – FOR IMMEDIATE RELEASE**

**November 1, 2002**

**New Products Release: 9-1-1 Emergency Communications Manual 4<sup>th</sup> Edition and Emergency Communications Core Curriculum Series**

Professional Pride Training Company, Inc. announces the release of two new 9-1-1 communications training products. The **Emergency Communications Core Curriculum Series** is a complete training curriculum based around the new **4<sup>th</sup> Edition 9-1-1 Emergency Communications Manual**, long used as a basic academy and college textbook for emergency communications training programs.

The long-awaited new 4<sup>th</sup> Edition of the Communications Manual contains over 400 pages of current and relevant information on emergency communications written and edited by leading authorities and trainers in the industry. Completely re-written and updated, this 4<sup>th</sup> Edition contains important additions to the E911 and Terrorism chapters as well as EMD, Liability and Crisis Intervention.

The Core Curriculum Series takes your classroom training to a new level. Based around the 4<sup>th</sup> Edition Communications Manual as your basic textbook, the Core provides everything else you need to conduct your classroom-training program. Core takes each of the ten Manual units and provides the instructor all of the following tools to teach each subject: Instructors Manual, PowerPoint Presentations, Unit relevant actual 9-1-1 calls on CD and master sets of student workbooks and completion certificates. The cost of the product includes a site license for your agency to reproduce student workbooks for as many students as needed.
