

ProQA TRAINERS ASKED, WE ANSWERED

NEW 9-1-1 TRAINING SIMULATOR

New Hires ** Reluctant Experienced Call Takers ** Quality Control Re-Makes

What 9-1-1 Trainees need
the most is.....

EXPERIENCE!

EMD EFD EPD

Trainees need a way to work through all the protocols and PRE-ARRIVAL while on the phone with changing circumstances and difficult callers.

Engage 9-1-1 with **ProQA**
phone and radio simulators!

Simulators increase
confidence and build
skills using protocols.

ProQA Certified

9-1-1 Simulator

1

Improved Awareness - trainees will learn to practice moving through **Case Entry and Key Questioning** in a safe environment. Learners establish the appropriate **Code with ease** after taking repetitive calls on our phone lines with changing circumstances.

2

Improved Skills - allow trainees to practice Post Dispatch Instructions and **Pre-Arrival**. Trainees will learn life support and transmit key info to responders. All sessions can be *recorded* and all calls 'documented'.

3

Improved Problem solving - Trainers can purposefully present high risk low occurrence calls that provide 'experience'. DeJaVu is something very good to have when time requires quick thinking! Let them practice!
